# Pro UltraFLEX Eco Nitrile Gloves

---

At Little Eco, we believe in providing businesses with high-quality, eco-friendly alternatives that don't compromise on performance.

The Pro UltraFLEX Eco Nitrile Gloves offer premium protection while helping your business reduce its environmental impact.

These gloves offer 21% degradation after 41 days and 90% degradation in 490 days in correct landfill conditions.

# Key Features & Benefits

---

- ✓ **Biodegradable Technology** – Breaks down significantly faster in landfill conditions compared to standard nitrile gloves which take over 100+ years.
- ✓ **Durable & Strong** – High-quality nitrile for exceptional resistance to punctures and chemicals.
- ✓ **Comfortable Fit** – Soft, flexible material with a beaded cuff for improved dexterity and all-day wear.
- ✓ **Textured Tips** – For better control and grip in both dry and wet conditions.
- ✓ **Powder-Free & Latex-Free** – Ideal for users with latex allergies or sensitivities.
- ✓ **Eco-Conscious Choice** – Supports your sustainability goals without sacrificing quality.

# Certifications & Compliance

---

✓ **Medical Grade** - Designed for professional use, offering reliable protection in medical settings.

✓ **Tested for Biodegradability** – Independently assessed for landfill breakdown performance. AMST D5526 Tested.

✓ **EN 1186** – Approved for use in food handling industries.

✓ **EN ISO 21420 2020** – Manufactured under strict quality control standards.

✓ **PPE Regulations** - In compliance with PPE Regulation (EU) 2016/425 PPE Category I.
